

PRESS RELEASE

For Immediate Release

List & Label 22 is Compatible With Microsoft Visual Studio 2017

Constance, Germany, 03/07/2017 – combit Software today announced their award-winning List & Label reporting tool is compatible with the brand-new Visual Studio 2017. combit is one of a group of international Microsoft Visual Studio Sim-Ship Launch Partners who develop components, controls and Microsoft Visual Studio plug-ins that help developers and developer teams to be more productive. By integrating List & Label in Microsoft Visual Studio, customers are able to enhance their application with List & Label's powerful reporting capabilities without effort.

"We're pleased to see combit add support for Microsoft Visual Studio 2017 developers with List & Label," said Shawn Nandi, Senior Director, Cloud App Dev and Data Marketing for Microsoft Corp. "List & Label's compatibility with Visual Studio 2017 helps our customers create high-quality applications with robust reporting functionality."

"Congratulations to Microsoft on the release of Visual Studio 2017. We are very excited to be part of the exclusive group of Sim-Ship Partners. Having been a Visual Studio Partner for many years, we are impressed by the new features. The collaborative effort with Microsoft enables a smooth integration of List & Label Visual Studio 2017," stated Jochen Bartlau, Managing Director and Head of List & Label Development.
